

Combinatorial Problems for String and Graph and Their Applications in Bioinformatics 1

E-Tutorial on a Special Topic Related Combinatorial Methods for String and Graph
(30 Mar - 2 Apr 2020)

| Name & Affiliation | Title of Talk |
|---|---|
| Wing-Kai Hon National Tsing Hua University, Taiwan | An introduction of Burrows-Wheeler transform and its variants (Slides) (Video) |
| Shunsuke Inenaga Kyushu University, Japan | Combinatorial algorithms for grammar-based text compression (Slides) (Video) |
| Yu Lin Australian National University, Australia | Graph models and algorithms in genome assembly (Slides) (Video) |
