

**Topics at the Interface of
Low Dimensional Group Actions and Geometric Structures
Introductory School (04 - 08 January 2021)**

Name & Affiliation	Title of Talk
Francesco Bonsante Università degli Studi di Pavia, Italy	An introduction to AdS geometry (Video1) (Video2) (Video3)
Tullia Dymarz University of Wisconsin-Madison, USA	Introduction to the large scale geometry of nilpotent and solvable Lie groups (Video1) (Video2) (Video3)
François Guéritaud Université de Strasbourg, France	From ping-pong in the Grassmannian to Anosov representations (Video1) (Video2) (Video3)
Yair Minsky Yale University, USA	Hyperbolicity and mapping class groups (Video1) (Video2) (Video3)
