Conference on Index Theory and Related Topics
23–27 August 2021

Speakers

Pierre Albin, University of Illinois Urbana-Champaign, USA
Jean-Michel Bismut, Université Paris-Saclay, France
Xianzhe Dai, UC Santa Barbara, USA
Hao Guo, Texas A&M University, USA
Pedram Hekmati, The University of Auckland, New Zealand
Nigel Higson, The Pennsylvania State University, USA
Peter Hochs, Radboud University, Netherlands
Bo Liu, East China Normal University, China
Richard Melrose, Massachusetts Institute of Technology, USA
Martin Puchol, Université Paris-Saclay, France
Shu Shen, Sorbonne Université, France
Yanli Song, Washington University in St. Louis, USA
Xiang Tang, Washington University in St. Louis, USA
Boris Vertman, University of Bonn, Germany
Hang Wang, East China Normal University, China
Siye Wu, National Tsinghua University, Taiwan
Zhizhang Xie, Texas A&M University, USA
Ken-Ichi Yoshikawa, Kyoto University, Japan
Guoliang Yu, Texas A&M University, USA
Yeping Zhang, Korea Institute for Advanced Study, Korea

Organizing Committee

Tien Cuong Dinh (National University of Singapore)
Fei Han (National University of Singapore)
Xiaonan Ma (Université Paris Diderot - Paris 7)
Mathai Varghese (University of Adelaide)

This conference is part of the program on
Index Theory and Complex Geometry

Part One
16–27 August 2021

Part Two
31 July–11 August 2023
