

String and M-Theory: The New Geometry of the 21st Century – II

22–26 November 2021

Lecture speakers

Yang-Hui He (London Institute, Royal Institution, UK)
Neil Lambert (King's College London, UK)
Marcos Marino (University of Geneva, Switzerland)
Christian Saemann (Heriot-Watt University, UK)
Hisham Sati (New York University Abu Dhabi, United Arab Emirates)
Ashoke Sen (Harish-Chandra Research Institute, Prayagraj, India)
Eric Sharpe (Virginia Tech, USA)

Organizing committee

Meng-Chwan Tan (National University of Singapore, Singapore), Co-chair
Fei Han (National University of Singapore, Singapore), Co-chair
Neil Lambert (King's College London, UK)
Christian Saemann (Heriot-Watt University, UK)
Hisham Sati (New York University, UAE)
Mathai Varghese (The University of Adelaide, Australia)
Edward Witten (Institute for Advanced Study, USA)
Shing-Tung Yau (Harvard University, USA)

This conference is part of the program on String and M-Theory:
The New Geometry of the 21st Century – II
(22 November–3 December 2021)
