

Interactions of Statistics and Geometry (ISAG) (14–18 February 2022)

Speakers

- Ming-Yen Cheng (Hong Kong Baptist University, China)
- Ingrid Daubechies (Duke University, USA), plenary speaker
- Ian Dryden (Florida International University, USA), plenary speaker
- Herbert Edelsbrunner (IST Austria, Austria)
- Benjamin Eltzner (Max Planck Institute of Multidisciplinary Sciences, Germany)
- Aasa Feragen (Technical University of Denmark, Denmark)
- Sungkyu Jung (Seoul National University, Korea)
- John Kent (University of Leeds, UK)
- Kanti Mardia (University of Leeds and University of Oxford, UK)
- Steve Marron (The University of North Carolina at Chapel Hill, USA)
- Jonathan Mattingly (Duke University, USA)
- Sayan Mukherjee (Duke University, USA)
- Hariharan Narayanan (Tata Institute of Fundamental Research, India)
- Victor M. Panaretos (École polytechnique fédérale de Lausanne (EPFL), Switzerland)
- Wolfgang Polonik (University of California, Davis, USA)
- Richard Samworth (Cambridge University, UK)
- Christof Schötz (Universität Heidelberg, Germany)
- Stefan Sommer (University of Copenhagen, Denmark)
- Do Tran (Georg-August-Universität Göttingen, Germany)
- Katharine Turner (Australian National University, Australia)
- Andrew Wood (Australian National University, Australia)
- Ming Yuan (Columbia University, USA)

Organizing committee

- Stephan Huckemann (Georg-August-Universität Göttingen, Germany)
- Ezra Miller (Duke University, USA)
- Zhigang Yao (National University of Singapore, Singapore)
