

Workshop on p-adic Geometry (18–22 Nov 2024)

Name & Affiliation	Talk Title
Pierre Colmez Institut de Mathématiques de Jussieu- Paris Rive Gauche, France	Emerton’s Factorization of Completed Cohomology
David Helm Imperial College London, UK	Co-Whittaker families for quasi-split groups
Teruhisa Koshikawa RIMS, Kyoto University, Japan	Cohomology of log prismatic F-crystals
Shizhang Li Academy of Mathematics and Systems Science, CAS, China	p-adic Trace and (generalized) Poincare Duality
Lucas Mann University of Münster, Germany	Six-functor Formalisms and Categorical Langlands
Wieslawa Niziol Institut de Mathématiques de Jussieu- Paris Rive Gauche, France	Duality Theorems in p-adic Analytic Geometry
Ziquan Yang Chinese University of Hong Kong, Hong Kong S.A.R	Pointwise criterion for p-adic local systems
